Byotrol is a hygiene revolution. Its patented formula combines biocides in a way that amplifies their effectiveness, making them work longer and more gently than previously thought possible.

**Description**

Colourless detergent sanitiser.

**Testing**

Successfully passed European Standards EN1276 against bacteria (TC 112) and EN1650 against yeasts (TC 80).

**Powerful**

Independently tested to be effective against microbes typically found on surfaces.

**Longer-Lasting**

Our own testing proves that Byotrol carries on being effective even when dry, lasting for many days on undisturbed surfaces. Most disinfectants stop working as soon as they have dried. After washing the product off, for residual protection apply Byotrol Surface Sanitiser.

**Gentle**

Byotrol is water-based, non-corrosive and non-hazardous in use and kind to the environment.

**Application Areas**

Can be used on materials commonly found within the Food and Beverage industry including stainless steel, aluminium, galvanised or chrome finishes, rubber, wood and plastics.

**Application Instructions**

Ensure the surface is free of gross debris, spray or wipe on, then rinse off.

**Technical Data**

**Appearance** Liquid, colourless

**pH** 6-8

**Ingredients**

Aqua, C9-11 pareth 5 and 8, didecyldimonium chloride, benzalkonium chloride, polyhexamethylenebiguanide, dimethicone. Active ingredients < 1% RFU, <10% Concentrate.

**Storage**

Store upright, away from heat, direct sunlight and out of the reach of children.

**Safety**

Avoid breathing any spray vapour. Keep away from eyes and inflamed skin. In case of contact with eyes, rinse with plenty of clean water. Do not mix with other products. Use biocides safely. Always read the label and product information before use.

**MSDS Reference**

B1945 (Conc) B1946 (RFU)
